### AFFAIRS OF THE DISTRICT.

An Amendment Proposed Relating to Private Street Lamps.

The Stringing of Wires to the Schley Court of Enquiry Requested-Prosecution of the Liquor Cases Urged-The Bathing Beach Plans

Thomas J. Fisher, the acting Electrical Engineer, yesterday submitted to the Com-missioners a recommendation providing for the amendment of Article XII of the Police Regulations. The amendment re-lates to the erection and care of private lamps in various parts of the city. Under present conditions there are no proper regulations governing this class of street lights, and it is the purpose of the pro-posed law to place the prive e lighting of streets or alleys under whable regula tions, similar to those which govern the public lighting of the Latways. The

mendment recommended actions:
"No private lamp-post or born shall be erected or placed in any public street, avenue, alley, or road of in District of Columbia, except as authorized by spe previous to the erection of the lamp-pos-

post entails the cutting or removing of sheet asphalt, cement, and brick pavements or other improved surface, no permit shall be issued until a deposit to cov-er the cost of replacing same shall have been made and no authorized underground construction shall be injured or

"No private lamp-post or lamp or any part thereof shall be painted, ornamented, or lettered as a sign or advertisement. "Every private lamp shall show a white light and colored lights will not be per-mitted.

light and colored lights will not be permitted.

"No private lamp-post shall have a greater diameter than eighteen inches.

"Every private lamp in public streets, avenues, and roads shall be so placed that the distance from the sidewalk to the bottom of the lemp or lantern shall be not less than eight feet, and on public alleys shall not be less than fourteen feet from the pavement.

"When a private lamp is suspended from an arm attached to a building, the distance of the point of suspension from the building line shall not exceed six feet. When the arm carrying the lamp is placed at the corner of a building the perpendicular distance of the centre of suspension from the building lines shall not exceed six feet.

"When the arm carrying the lamp is placed at the corner of a building the perpendicular distance of the centre of suspension from the building lines shall not exceed six feet.

"When a private alterite light is placed."

from the building lines shall not exceed six feet.

"When a private electric light is placed in any public street or avenue the wires leading to it shall be placed underground. No private lamp placed at the curb shall be connected by overhead wires to the service of any house, and no lamp suspended from an arm attached to a building shall be connected by overhead wires to any pole or pole line.

"All service wires for supplying current to any building or premises for light or power, whether connected to mains carried overhead on poles or underground in conduits, shall be carried across the sidewalk and parking underground."

The Western Union Telegraph Company has made application for permission to string a loop of two wires over certain streets to be used in connection with the Schley Court of Enquiry. The route which these wires is to take is from the Baltimore and Potomae Railroad Company's pole at the southeast corner of Seventh and K Streets southeast to the telephone pole near the corner of Seventh and M Streets southeast, thence westward along M Street upon existing telephone poles into the United States Navy Yard, The

into the United States Navy Yard. The company also asks permission to string a loop of wires from the telephone pole in the alley between L and M Streets and Seventh and Eighth Streets southeast, thence westward along existing telephone poles into the navy yard.

In reporting to the Commissioners upon this application Thomas J. Fisher, Jr., Acting Electrical Engineer, states that the stringing of these wires is authorized by the national telegraph act of 1866, the wires to be used for interstate telegraph business in connection with the Court of Enquiry. He states that permission has been obtained from the telephone company for the use of the poles referred to, and that the permit will stipulate that the wires shall be removed within ten days after the final adjournment of the trial.

trial.

It is understood that the Commissioners will approve the recommendation on the ground that the Court of Enquiry is in the nature of a public emergency, and, therefore, within the purview of the law of 1866.

Albert E. Shoemaker, attorney for the Anti-Saloon League of the District, has addressed the Commissioners relative to the suspended cases for the unlawful sale of liquor on March 3 last. Several arrests were made of hotelkeepers for ille-gal selling on that day, the eve of the in-

gal selling on that day, the eve of the inauguration ceremonies. The cases were
brought before the Police Court in May,
and at the request of the Commissioners
were postponed.

Mr. Shoemaker in reminding the Commissioners of this action on their part
states that in the rainds of many their interference in the trial of the cases was
unusual and unwarranted, because the
actions against the bar keepers were regularly brought, conforming in every particular to the requirements of the law.
Mr. Shoemaker states further that since
the action of the Commissioners the cases
have remained in statu quo, except that
two of these to be prosecuted have secured a nelle pros.

There appearing to be no good reason
why the cases pending should not be
pushed to speedy trial, Mr. Shoemaker
asks that the Commissioners give the
necessary directions to that end.

Mr. Fisher, the Acting Electrical Fa-

Mr. Fisher, the Acting Electrical Engineer, yesterday forwarded to the Com-missioners his report upon the application of the Potomac Electric Power Company to erect six poles on Albany Street, from the Great Falls Railway to the corner of Forty-ninth and Albany Streets north-

Forty-ninth and Albany Streets northwest.

Mr. Fisher states that the stringing of
wires contemplated by the erection of
these poles will carry the line across the
Conduit Road. He produces a letter from
Lieut G. M. Hoffman acceding to the request of the company provided that the
construction be made under the supervision of the watchman of that division
and that the wires be removed upon demand of his office.

Mr. Fisher states further that authority for the erection of the poles and the
stringing of the wires is found in the
joint resolution approved July 8, 1888.

Dr. William Tindall, Secretary to the

Dr. William Tindall, Secretary to the Board of Commissioners, has received an invitation from the committee of arrangements to attend, at the Pan-American Ex-position, the exercises of "Rhode Island Day." This celebration will take place on September 19, in the New England States Building.

Building.

Dr. Tindall has made several visits to Providence upon District matters, notably to make a study of the system of collecting garbage in that city, and to make a personal examination of the system of card record in the tax office. His acquaintance with the municipal officials of Providence brought him the invitation referred to.

at the bathing beach has been so marked that Superintendent Stevens will ma-terially reduce the force of attendants terially reduce the force of attendants there. If the present increase in the temperature of the air and water should continue, a sufficient force will be provided for the accommodation and protection of bathers until the racing events which will occur on the 11th instant.

Superintendent Stevens requests those who have suits on deposit at the beach to call for them at their earliest possible convenience, and notifies them that the bathing beach officials will not be remponsible for suits not properly marked with the owner's name.

The Commissioners were yesterday

officially notified by Capt. E. S. Houston, commanding the United States steamer Amphitrite, that George Thomas, of Brightwood, D. C., is adjectify from that The Best Prescription for Malaria

### DANGER SIGNALS.

No engineer would be mad enough to run by the flag which signaled danger. What the danger was he might not under-stand, but he would take no chances. It is different with the average man or woman. They at-tempt constantly

to run by the dan-ger signals of Nature and that attempt costs thousands of lives every year. When the appetite becomes irregu-lar or entirely gives out, when sleep is troubled and broken, when there is a loss of flesh, when there is a constant feeling of duliness and languor, Nature is hoisting the danger signal. The stomach and its allied organs are failing in their work and the body is los-ing the nutrition on which its strength depends. Such a condition calls

for the prompt use of Dr. Pierce's Golden Medical Discovery. It cures dis-eases of the stomach and other organs of digestion

and nutrition, purifies and enriches the blood and builds up the body with sound, solid flesh.

"Your kindness to me I can never forget," writes Mrs. Josie E. Clark, of Enterprise. Shelby Co., Mo. "I caunot express half my feelings of gratefulness to you. I had despaired of ever getting well. I had been in had health for twelve years. Had sches all through me, numbhands, cold feet, and everything I see distressed me; bowels constipated, was very nervous, depressed and despondent. In fact, I can't express half my bad feelings to you. When I first wrote to you I thought I could never see cured. I have taken six bottles of Dr. Pierce's Godden Medical Discovery, and my health is, now good. You have my honest recommendation to all sufferers. I think there is no medicine in the world as good as Dr. Pierce's."

If constipated use Dr. Pierce's Pleasbody with sound, solid flesh.

as good as Dr. Pierce's."

If constipated use Dr. Pierce's Pleasant Pellets. They cure constipation, biliousness and sick headache. They do not produce the "pill habit."

#### NO CHANGE IN LOCAL STRIKE The Paperhangers Express Confi.

dence in Their Fight. There was little or no change in the ondition of affairs vesterday in the strike of the members of Paperhangers' Assem-bly No. 69, Knights of Labor, who have

been out since Tuesday for an increase of wages. They struck for an increas of 40 cents per day over the present rate of \$2.80. Both sides, however, claim to have made considerable gains in the last twenty-four hours. It was also stated that twenty of the local employers have that twenty of the local employers have decided to not operate union shops in the future. This step was taken, it was said, because the members of the local paper-hangers assembly have in many instances broken their contracts. The employers also claim that they can get all the help they want at the present rate of wages. On the other hand, the members of the assembly declare paperhangers who have been induced to come here from other cities quit work when informed of the situation. In addition to this, it is claimed, that the local organization has resources to draw upon which will enable them to continue the strike for an indefinite period. They also state that other local labor organizations will come to their assistance if needed.

#### NEGRO ABSOLVED FROM BLAME.

An Autopsy Indicates That the Woman Died From Natural Causes. Rosa Coleman, colored, twenty-two ears old, died yesterday morning at her home, 61 Jackson Street northeast, without medical attention, and, owing to the charges made by her neighbors, Alfred Johnson, colored, of \$20 Culliname's Alheld until released by order of the acting coroner.

ing coroner,
According to the story told to Sergeant Kilmartin, Alfred had been Rosa's steady company until a short time ago. On Labor Day, the informants alleged, the two had a quarrel, and the woman was hit on the head. As a precautionary measure Policemen Mulley and Brawner were sent to the Eleventh Street wharf of the American fee Company, where Johnson is employed, and placed him under arrest. On the arrival of Deputy Coroner Glazebrook, an autopsy was performed upon the body of the woman, which had been previously removed to the morgue, and it was ascertained that death was due to natural causes. Johnson's release foi-

## **New Cure** For Goitre

Any Lady Can Quickly Cure Herself of This Ugly and Dangerous Disfiguration in the Privacy

Large Trial Package Mailed Free to Prove That Goitre Can Be Quickly Cured.

This charming and beautiful English woman, the Duchess of Newhall, tells of her suffering for years and finally, after trying all the great surgeons and doctors in the world, cured herself in her own home, with this marvelous home remedy

MRS. LUCILLE LYTTON, Duchers of Newhall, London, Eng.

for Goitre. She says: "The first I noticed of my Goitre was a slight swelling on the side of the neck, accompanied by an extreme nervousness and palpitation. A noted London surgeon examined my neck and pronounced it Goitre and commenced a treatment that he felt sure would remove it quickly. Instead it grew rapidly until my condition was such I retired to our country house. I could not endure the humiliation, my appearance was so dreadful, and I suffered extreme pain. My eyes nearly popped from my head. We sought relief from every surgeon and specialist of known reputation in the country, but they refused to operate for fear of rupture of the Jugular vein. My husband heard, through an American friend of Dr. Haig's home cure for Goitre and we tried it as a last resort. Its effect was marvelous. In Just a few applications the Goitre began to grow smaller and in a few weeks all trace of it was gone. The pain and suffering I had endured for years ceased completely the first time we used the remedy. I am now completely cured and owe it all to Dr. Haig and his wonderful remedy—Lucille Lytton."

psin, danger, operation, or any inconven-ience. Send your name and address to Dr. John P. Haig, 285 Glenn Bullding, Cincianati, Ohio, and he will forward a large trial package, postage prepaid. Do not fail to get this wonderful remedy, Wherever used its success has been mar-velous.
